

People Reaching People

December 2006

The Rt. Rev. Todd and Rev. Patsy McGregor

Serving in Kenya and Madagascar

Todd consecrated Bishop in Antananarivo, Madagascar

On December 10th, Todd was consecrated at St. Laurent's Cathedral as Assistant Bishop of Antananarivo and Area Bishop of Tulear. This largest province of Madagascar covers approximately 1,000 miles of coast line in the south and southwest portions of the fourth largest island in the world.

It was an overflowing cathedral with over 1,350 people gathering for this grand occasion. The Archbishop of the Indian Ocean and five other bishops from the Province of the Indian Ocean, along with Bishop Frade from the Diocese of Southeast Florida, who gave an impelling charge, were joined by the Prime Minister, the President of the Parliament, American and Mauritius Ambassadors and other dignitaries.

The three hour service was a lovely celebration and Patsy sang "Follow Me", a song she wrote last year. Friends and family, including Todd's eldest brother, Tom, flew in from various parts of the world to witness

and celebrate this blessed occasion. For all of this, we thank the Lord!

Todd leads training in Sudan

Just weeks before his consecration, Todd led two trainings in Sudan. The first conference was for 30 evangelists regarding practical ways of evangelism in rural areas. The second was a retreat for 24 deacons who were ordained in the Diocese of Maridi.

Patsy was ordained priest Sept. 3rd

Archbishop Benjamin Nzimbi ordained Patsy along with others on September 3rd at All Saints Cathedral, Nairobi. Patsy's parents Audrey and Gerry Cox, along with her sister Betsy attended this special occasion.

May You be blessed with a very Merry Christmas as we celebrate the true Reason of the Season, our salvation in the Lord Jesus Christ!

JOY TO THE WORLD!

Send all tax deductible contributions to the “Diocese of SE Florida”, attention of Ms. Cris Valdes, Diocese of SE Florida, 525 NE 15th St., Miami, FL. 33132

Please earmark the check for the McGregor’s ministry
